

IsatPhone Pro

– the ultimate combination

Available in June 2010

With SingTel Commtroller – a newly developed online tool, you can provision, control and monitor your IsatPhone Pro traffic via internet wherever you are.

From the world's leading provider of mobile satellite communications

When it comes to what you really need in a satellite phone, IsatPhone Pro delivers. This is the first global handheld from Inmarsat – purpose-built for the most reliable satellite communications network in the world. With **clear voice quality** that you'd expect from the market leader.

- › The essential services: satellite telephony, voicemail, text and email messaging, GPS location data
- › The **longest battery life**: up to 8 hours talk time and up to 100 hours standby time
- › The **most robust handset**: operates at -20°C to +55°C; dust, splash and shock resistant (IP54); humidity tolerance from 0 to 95 per cent
- › The only satellite phone to **support Bluetooth**: place the handset on its side, with full manoeuvrability of the antenna, for easy hands-free use
- › **Easy to use**: intuitive GSM-style interface; high-visibility colour screen; larger keypad for easy dialling with gloves on
- › **Global coverage** with reliable network connection: operates over global geostationary satellites that will be operational into the 2020s; significantly less possibility of call dropping
- › **The ultimate value**: highly competitive handset, accessories and airtime pricing

Coverage

This map depicts Inmarsat's expectations of coverage, but does not represent a guarantee of service. The availability of service at the edge of coverage areas fluctuates depending on various conditions.

IsatPhone Pro operates globally over the Inmarsat-4 satellites.

Physical	
› Dimensions	Length: 170mm (6.7") Width: 54mm (2.1") Depth: 39mm (1.5")
